Personal Edition

# Compose 2021.0.1 Hotfix

Altair Compose 2021.0.1 is a bug fix release featuring a variety of enhancements and resolved issues.

## **Resolved Issues**

The following issues were resolved:

### **Slider Performance**

Slider (GUI command) performance is reduced in 2021.

### **GUI Command**

Setting the value of a GUI element is not working in release 2021.

## **Library Manager**

Library Manager 'install' option crash with incorrect OMC file.

\* Applies to Business Edition only.
